PROJECTS

Event Endeavors [Event Website]

[Live site](#) | [Github Client](#) | [Github Server](#)

Event Endeavors is a dynamic event management system featuring a user-friendly dashboard for admins to seamlessly add and manage events.

- Implemented a dashboard where admin can add Event and manage Events.
- Users can easily register for upcoming events and the registration process is designed for simplicity, allowing attendees to express their interest in events with just a few clicks.
- Event guests can download registered event tickets, they can scan the QR code in their ticket.

Technologies: TypeScript, Next.js, NextUI, Firebase, Node.js, Express.js, MongoDB.

PaintXpress [House Painting Service]

[Live site](#) | [Github Client](#) | [Github Server](#)

PaintXpress revolutionizes house painting services with dynamic filtering tools for refined service selection and a responsive design that ensures a seamless user experience across all devices.

- Dynamic Filtering Tools Refine the options based on service categories, Price range.
- Watch as the webpage dynamically updates, displaying only the services that match the criteria.
- Experience the beauty of responsive design ensuring a seamless experience on all devices.

Technologies: TypeScript, Next.js, AntDesign, Firebase, Node.js, Express.js, MongoDB.

T-52-Mobile-Zone [E-commerce-Team Project]

[Live site](#) | [Github Client](#) | [Github Server](#)

T-52-Mobile-Zone delivers a seamless e-commerce experience, featuring Google authentication, order management, and an intuitive admin dashboard.

- A complete Mobile Phone selling website with google authentication and seamless user experience across various devices.
- Users can order products and manage their orders in the dashboard.
- An admin dashboard is available. I Worked on both frontend and backend part of this project.

Technologies: React.JS, Bootstrap, React Router, Node.js, Express.js, MongoDB.

EDUCATION

B.Sc in Computer Science & Engineering

(2019 - 2022)

World University of Bangladesh

CGPA 3.59
