CAREER OBJECTIVE

To build a strong career I would like to be a part of an organization where I can enhance my knowledge and skill for the development of the organization and myself.

SKILLS

Expertise : HTML, CSS, Bootstrap, Javascript, React, React Router, React Bootstrap, ES6

Comfortable : Node.js, Express.js, MongoDB

Familiar : Material UI, Tailwind

Tools : Git, VS Code, Heroku, Netlify, Chrome DevTools, Firebase

PROJECTS

Holiday Planner [Travel Agency Website]

- On this travel agency website, users can buy their favorite travel packages after logging in.
- As the admin panel is not implemented, the admin and user both can add more travel packages.
- Users can update their order status and also cancel it if they want.

★ **Technology used:** React.js, React Bootstrap, Firebase, Node.js, Express.js, MongoDB.
